Bike tool set with ratchet, bits, sockets and a bitholding screwdriver in the very compact Tool-Check. Perfect as a universal companion for a multitude of screwdriving applications. Premium bitholding screwdriver with Kraftform Plus handle for comfortable ergonomic screwdriving, avoiding blisters and calluses. Hard handle zones for high working speeds, soft handle zones for a high torque transfer. Bit ratchet for quick working when screwdriving with a machine or conventional hand tool is not possible due to space constraints. Rapid reversing from clockwise to counterclockwise rotation and vice versa via the reversing lever. The knurling on the ratchet head allows for quick rotation (with the thumb). Easiest operation, even with just one hand. Ergonomic ratchet head/lever: Kraftform geometry with perfectly shaped contact surfaces for the fingers. Smallest possible tool design thanks to the direct bit mounting in the ratchet head, perfect for low working heights. Small return angle of 6° for precise working. Robust drop-forged solid steel design. Torques of over 65 Nm. The Rapidaptor bitholding screwdriver with fast-rotating sleeve: Can be used as an extension, for lightning-fast bit changes of even the smallest bit sizes with just one hand. Bits (BTZ) with BiTorsion zone to cushion peak loads for universal use; tough bits (Z) for universal use. Hand and machine sockets for nearly all applications. With Take it easy tool finder: colour coding by size - for quick and easy identification of the required tool. Slip-proof for easy grip even with oily hands. With ball stop groove. For external hexagon bolts and screws. Made of matte chrome-plated chrome-vanadium. With the glass fibre reinforced plastic tyre levers, the tyres can be safely levered off the rim without damaging the rim. Take a selection of tools out and about with you in the included Bit-Check. With a robust tool pouch.

Bicycle Set 3

Bicycle Set 3 is a practical assortment for the independent execution of assembly work and repairs on road bikes, mountain bikes and e-bikes. Especially useful: a Bit-Check (empty) is also included, which can be equipped individually with tools on the way: less weight on bike rides.

Safely stored

The green locking components of the Tool-Check secure the tool reliably during transport. At the same time, they are easy to operate and allow quick access to the tools.

Ideal for working in confined spaces

With their extremely compact design, the Zyklop Mini ratchets are particularly suitable for all hard-to-reach applications.

Bit ratchet also for sockets

1/4" sockets can also be used with the Zyklop Mini bit ratchet by connecting the 870/1 adapter (¼" hexagon to 1/4" square head).

The Zyklop sockets

The Zyklop sockets are suitable for manual and machine-operated tools (non impact). They feature a ball stop groove and knurling at the rear end for manageability during manual use. They are made of chrome-vanadium, matte-chromed. Take it easy tool finder: colour coding by size as well as size stamping - to help you find the required socket quickly and easily.

Take it easy tool finder system

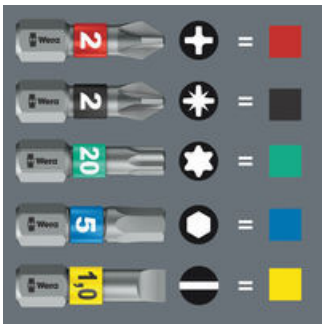

Take it easy tool finder system - with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklop bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklop sockets and Zyklop bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklop bit sockets).

BiTorsion Bits

Premium bits with torsion zone into which kinetic energy is dissipated during peak loads. With softer BiTorsion zone to prevent the bit tip from twisting at high loads. This significantly increases product life. Tough design for universal use.

Bits with Take it easy tool finder

Take it easy tool finder with colour coding according to profiles and size stamp - for simple and rapid accessing of the required tool.
