EAN:	4013288140357	**Size:**	165x60x22 mm
Part number:	05073681001	**Weight:**	13 g
Article number:	1441	**Country of origin:**	CZ
		Customs tariff number:	39269097

- Attachment tool with holding function for screws
- Holds all screw profiles and sizes securely on the tool
- Suitable for round and hexagonal blades with a diameter of 4.5 mm to 6.0 mm

Wera screw gripper: Attachment tool with gripping function for screws. Holds all screw profiles securely on the tool. The screw gripper can be pushed upwards on the blade while screwdriving, so that it does not get in the way, even in deeper screwdriving situations.

And this is how the gripper works

Push the screw gripper onto the tip of the screwdriver until the end of the blade protrudes from the rubber blade holder.

And this is how the gripper works

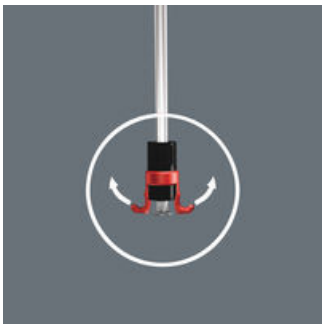

Attach the screw to the tip of the blade and secure it in the screw gripper.

And this is how the gripper works

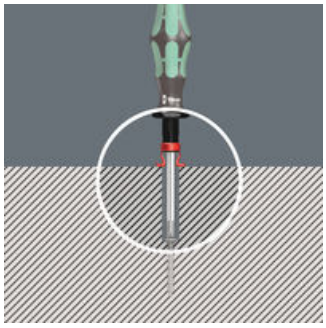

Pull the screw gripper towards the screwdriver handle until the two arms of the gripper sit against the head of the screw and are spread slightly apart. The Wera screw gripper releases the screw automatically after it has been fastened.

And this is how the gripper works

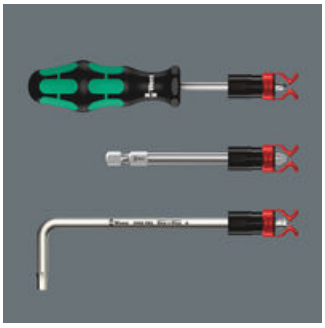

The two gripper arms spread further apart as they are pushed against the surface and automatically snap back when the head of the screw is countersunk.

And this is how the gripper works

When fastening screws in blind holes the screw gripper is pushed back, making it possible to reach even deep-seated screws.

And this is how the gripper works

The screw gripper attachment can also be used with L-keys and long bits!
