Product specification

Compact wall outlet for the construction of a passive network infrastructure with the highest quality requirements. The junction box is suitable for connecting telephones up to 10 Gbit networks and power supply with PoE with up to 90W. The installer can connect the very robust zinc die-cast wall outlet very easily and in the shortest possible time with an LSA installation tool without errors. In addition to the permanent quality control during production, independent test laboratories confirm the very good quality with various certificates. The wall outlets are supplied in retail-friendly, separable cardboard packaging with 10 pieces each.

- variants, mounting type: AP, UP, UPk, UP0
- variants, number of ports: 1, 2
