Similar to illustration

SM is a MultiCard marker for labelling control and signalling devices. The tags are clipped into the carriers or attached by means of the adhesive film already fitted to them. Customised tags can be created with the PrintJet CONNECT or Plotter marking systems.

- Users can quickly produce tags to suit their needs
- No need to stock expensive standard tags
- Highly resistant printing quality when using the PrintJet as a substitute for engraving
- For extreme demands, we recommend the ETO SM protective film
- Holders can be used for the 22-mm or 30-mm-diameter push-buttons from Siemens, ABB, Moeller and Télémécanique

For custom printing: Please send us a file of our labelling software M-Print PRO or M-Print PRO Online (without installation) for your labeling specifications.

General ordering data

Version	SwitchMark, Device markers, 8 x 27 mm, white
Order No.	1699820000
Type	SM 27/8 MC NE WS
